You helped me order a tea
cause I don't speak portuguese
You gave me your number and said feel free

Like nothing mattered at all
you waved at me from your boat
You said don't worry about home

Help me into the water
I'm holding on to you
I want to see it all now
all of you

You got your stories and I got my stories
the list of our issues is long
a lot to know, a lot to talk about

But not now
The time isn't right
We shouldn't be thinking about this tonight
You said don't worry about home

Just help me into the water
I'm holding on to you
I want to see it all now
all of you
